Title: Personal Injury: The Deposition Whisperer. How to be the Alpha and Control the Room

Description: The goal of this program is to assist attorneys in honing their deposition skills so as to better control witnesses and their adversary(s), while making their own client more comfortable. By sharing proven strategies, the program will give attendees an insight into how seasoned litigators and successful trial lawyers conduct depositions. The program further aims to help attorneys capitalize on opportunities often wasted in discovery, and in the process, maximize their chances of success in overall scheme of the lawsuit. The program will integrate controlling law (case law, statute and Court Rules), practical concerns, and ethical considerations, as well as specific strategies to enable even the least experienced attorneys depose a witness like a seasoned pro.
