

Hygiene360™

Breathe easier We're purifying the air

Cleans the air 4x per hour
in areas up to 700 sq ft

Removes up to 99.7% of harmful, airborne contaminants as small as .03 microns
including COVID19 and other viral aerosols, dust, pollen, smoke, mold, bacteria, odors and volatile organic compounds (VOCs)

Uses a 4-stage high-efficiency filtration process
that includes HEPA13 & carbon filters

Highest Clean Air Delivery Rates (CADR)
Dust: >400, Pollen: >450, Smoke: >450

See your Real Time Air Quality
with the unit's Air Quality Indicator + Numeric Display

Reduces Odors

Full-service by Ambius
with regular maintenance, cleaning, filter replacement, and disinfection that helps ensure safe operation

Air Hygiene is part of Hygiene360 by Ambius, a full-circle approach to create safer, more hygienic spaces.
