

A tall, white, rectangular air purifier stands in a bedroom. The purifier has a black top with a glowing blue light strip. A digital display on the front shows the number '10'. The background shows a bed with white pillows and a light-colored wall. The overall scene is softly lit, suggesting a clean and healthy environment.

# Hygiene360™

**INDOOR AIR CAN BE UP  
TO 5X MORE POLLUTED  
THAN OUTDOOR AIR**

Take a deep breath –  
Ambius air purifiers can help

ambius

With new research showing increasing evidence that coronavirus particles can spread through the air, indoor air quality has never been more important. Now, you can get cleaner air with Air Purification from Ambius.

### **Our full-service Air Hygiene solutions:**

- Use a multilayer process including HEPA13 to filter out 99.97% of harmful, airborne contaminants including COVID-19 and other viral aerosols, dust, pollen, smoke, mold, bacteria, odors and volatile organic compounds (VOCs)
- Produce low noise at 34-55 decibels – as quiet as a home refrigerator
- Can clean up to 700 square feet of space per unit
- Includes installation, monthly wellness checks, cleaning, disinfection; and filter replacement

### **Get peace of mind with our full-service solution**

When not properly maintained, air purifiers can circulate bad air. To ensure safe operation, Ambius specialists follow enhanced safety processes to protect your facility and people.
